 - Colorado recently launched a program to offer three free mental health sessions to children. Anyone between 12 and 18 can go to the [I Matter state website](#) to take a short survey to assess their needs. If the results show they need help, the site will connect them to a provider for a 45-minute appointment in the next two weeks. One of the early questions asks if the young person is in crisis and directs those who answer yes to a crisis line for a more rapid response.
